

Van Horn Aviation

Composite 206L Main Rotor Blades

Part Number:	20633000-101 <i>Replaces Bell P/N 206-015-001-(ALL)</i>
Fleet Adoption:	STCs from FAA, Transport Canada, and Brazil ANAC Also flying in Australia, Colombia, Indonesia, Mexico, New Zealand, and South Africa
Service Life:	16,000 hours <i>4,000 hours for Bell P/N 206-015-001-(ALL)</i>
Construction:	Corrosion-resistant carbon fiber spar and skin construction, closed cell structural foam interior, titanium attachment plates
Leading Edge Protection:	Inconel/nickel abrasion strips along entire length of leading edge for leading edge fidelity and erosion protection
Airfoil Design:	NASA RC(4)-10 laminar flow airfoil for improved efficiency
Paint:	Nano hybrid polyurethane (NHP) topcoat for increased durability, flexibility, and corrosion resistance
Performance:	3-5 kt increase in speed
Installation:	Direct replacement without hub modification
